

## Scheduled Single Game Fee Structure

Pioneer Valley has always tried to absorb any additional fees that arise during the course of the soccer seasons. We have been paying an additional half game fee to referees to officiate single games. This cost has increased over the last few years to the point where the PVJSL can no longer absorb this cost.

Beginning with the Fall 2012 season any team with a Monday – Friday night game AFTER September 14<sup>th</sup> (these are all single games) Will be responsible for paying the referee a fee of 1.5 times the normal fee structure that is posted online. The attached chart will show the current game fees for games that are part of a set versus the fees associated with the single game situation.

The spring season is not an issue in this regard as the additional daylight allows for a two game set to be played for each weeknight. This would come into effect in the spring for reschedules where only one game is played.
